AUTHOR AND TITLE INDEX TO VOLUME 17

In this Index in alphabetical order are the names of the authors of all articles and of all articles abstracted, followed by the page number on which the article or the abstract begins. Abstracts are indicated by [abst.] following the title.

For Subject Index see page [6].

A

- Abbott, D. D.: See Harrison, J. W. E., *jt. auth.*
 Adams, D. F.: See Solberg, R. A., *jt. auth.*
 Adams, E. M.: See Hollingsworth, R. L., *jt. auth.*
 Ahlmark, A. Bruce, T., and Nystroem, A.: Silicosis mortality in Sweden [abst.], 318
 Amdur, M. L.: Tellurium oxide: animal study in acute toxicity, 665
 Amdur, M. O.: Influence of aerosols upon respiratory response of guinea pigs to sulfur dioxide [abst.], 320
 Anderson, H. H.: See Hine, C. H., *jt. auth.*
 Austin, L. G.: See Jarvis, W. D., *jt. auth.*

B

- Bair, J. T.: See Phillips, P. B., *jt. auth.*
 Baron, J.: See Cassan, G., *jt. auth.*
 Barsi, C.: Silicosis due to Tripoli powder [abst.], 318
 Silicosis in mercury workers at Monte Amiata, Italy [abst.], 319
 Barattini, M., and Martelli, D.: Silicosis and pneumoconiosis in lignitiferous mine of Ribolla [abst.], 317
 See Prosperi, G., *jt. auth.*
 Barton, W. B.: Welfare fund legislation—good or bad? 367
 Beckmann, H., and Hilgers, A.: Severe silicosis in baths manager [abst.], 313
 Bergstrand, A.; Friberg, L., and Odeblad, E.: Localization of mercury in kidneys after subcutaneous administration: study on rabbits with mercuric chloride and phenylmercuric acetate, 253
 Bishop, R. W., and Nebel, G. J.: Control of nitrogen in automobile exhaust gases: technical and economical aspects of one approach, 511
 Blackman, A. C., and James, H. R.: California resolves jurisdictional problems in occupational health, 188
 Blatz, H.: Gonadal doses in roentgen examinations, 161
 Blomquist, E. T.: Practical significance to industry of recent developments in tuberculosis management, 597
 Bombinski, T. J., and DuBois, K. P.: Toxicity and mechanism of action of Di-Syston, 192
 Borisova, M. K.: Experimental data for determining of maximum allowable concentration of dichloroethane in atmosphere [abst.], 324
 Braude, A. I.: Advances in chemotherapy of infection, 391

- Braun, D. C., and Sitgreaves, R.: Dermatitis in industry: pilot study with special reference to oils as causative factor, 259
 and Truan, T. D.: Epidemiological study of lung cancer in asbestos miners, 634
 Brief, R. S., and Drinker, P. A.: Collection of integrated samples of gaseous effluents, 654
 Bruce, T.: See Ahlmark, A., *jt. auth.*
 Brunner, H. E., and Ruettner, J. R.: Tissue reaction to thorium dioxide by peritoneal injection [abst.], 335
 Burgess, F.: See Pattle, R. E., *jt. auth.*
 Burhop, W. H.: Occupational health: our mutual problem, 351
 Burney, L. E.: Mutual goals of public health and occupational medicine, 571
 Burtschell, R. H.: See Tabor, E. C., *jt. auth.*

SUBJECT INDEX TO VOLUME 17

The following Index contains an alphabetical list of all significant subjects presented in the volume. Abstracts are indicated by [abst.], Books reviewed are listed alphabetically by author and by title under the heading "Books." Obituaries are indexed under the heading "Deaths."

A

- Aerosols
 - and sulfur dioxide [abst.], 320
- Air Force (United States)
 - biologic effect of microwave radiation on [Knauf], 48
 - problems in toxicology [Kitzes], 556
 - characteristics of particulate matter in atmosphere of certain American cities [Tabor et al.], 58
- Air pollution
 - and bronchitis [abst.], 333
 - contaminants: measurement of [abst.], 334
 - distribution of certain metals in atmosphere of certain American cities [Tabor & Warren], 145
 - by dust and sulfur dioxide from power stations [abst.], 333
 - gaseous effluents: collection of integrated samples [Brief-Drinker], 654
 - research and control in Great Britain [abst.], 330
- Aircraft
 - accidents: prevention of death and injury in [Moseley et al.], 111
- Airlines
 - commercial: preventive aspects of aviation medicine in operation [Schreuder], 170
- Alfalfa
 - dust problem: how Ohio is solving [Schafer], 67
- Alloys
 - sodium-potassium: experimental study of its hazards [Finkel & Lyons], 624
- American Board of Preventive Medicine, Inc.
 - examination in occupational medicine, 86
- American Medical Association
 - sectional meeting, 337
- Arsenic
 - microdetermination of: sources of error [Satterlee], 218
 - trioxides: acute oral toxicity and chemical and physical properties [Harrison et al.], 118
- Asbestos
 - respiratory and circulatory effects of [abst.], 310
- Asbestos miners
 - lung cancer in: epidemiological study [Braun & Truan], 634
- Atomic energy industry
 - industrial health in [Stern], 659
- Audiometry: See also Hearing
 - monitoring: medical principles [Davis et al.], 1
- Automobiles
 - exhaust gases: control of oxides of nitrogen in [Bishop & Nebel], 511

- Aviation
 - role of flight surgeon in safety [Wilbur], 64
- Aviation medicine
 - preventive aspects in commercial airline operation [Schreuder], 170

B

- Barium
 - strontium and, in human urine: radiochemical analysis [Farabee], 200
 - sulfate, radioactive: bronchogenic carcinoma from [Cember & Watson], 230
- Benzene
 - exposures: blood count in [abst.], 322
 - poisoning, 100 cases [abst.], 312
- 3,4-Benzopyrene
 - and air pollution [abst.], 332
- Beryllium
 - poisoning of lungs, follow-up study [abst.], 310
- Bladder
 - tumors: control of [abst.], 315
- Blood
 - lead content: effect of edathamil calcium-disodium on [Teisinger et al.], 295
- Books
 - Automobile Exhaust and Smog Formation [Faith et al.], 174
 - Diagnosis and Treatment of Cardiovascular Disease [Stroud & Stroud], 86
 - Faith, W. L.; Rensetti, N. A., and Rogers, L. H.: Automobile Exhaust and Smog Formation, 174

SUBJECT INDEX TO VOLUME 17

Meteorology

- factors, affecting working environment [abst.], 331

Miners

- emphysema and bronchitis of [abst.], 312

Monuron [3-(p-chlorophenyl)-1,1-dimethylurea]

- chronic toxicity of [Hodge et al.], 45

Mortality

- occupational, in Scotland [abst.], 307

Mullite

- effects of [abst.], 323

N

New York state

- experience in administration of code for radiation protection [Kleinfeld], 87

NEWS AND COMMENT, 258, 337, 668

Nitrogen

- dioxide and ozone in welding [abst.], 320
- oxides: control of in automobile exhaust gases [Bishop & Nebel], 511

Noise

- ear and [Glorig et al.], 81
- reduction of, from paper machines [Dahl], 519

Occupational health

- California resolves jurisdictional problems [Blackman & James], 188
- mutual problem [Burhop], 351

Occupational medicine

- and modern-day drugs [Holland], 593
- new techniques in teaching [Felton], 577
- and public health: mutual goals [Burney], 571

Odors

- anatomy and physiology [Dethier], 535
- control [Turk], 542
- measurement: current techniques [Nader], 537
- psychology: absolute judgments of odor [Pfaffman et al.], 544
- symposium, 534

Ohio

- method of solving alfalfa dust problem [Schafer], 67

Oils

- causative factor in industrial dermatitis [Braun & Sitgreaves], 259

Ozone

- and nitrogen dioxide in welding [abst.], 320
- tolerance [abst.], 320

P

Paper making

- reduction of noise from machines [Dahl], 519

Paraoxon

- aerosol, and sarin vapor: influence of physical activity on toxicity of [Punte et al.], 34

Pensions

- reconciliation of, with Social Security disability insurance [Royes], 590

Petroleum tank

- fatality from cleaning [abst.], 326

Phosphates

- organic insecticide poisoning [abst.], 324

Physical activity

- influence on toxicity of paraoxon aerosol and sarin vapor [Punte et al.], 34

Physical examinations

- for executives [Wade], 175

Plants

- response to hydrogen fluoride and sulfur dioxide [abst.], 332

Plastisol

- coatings in ventilation systems [Cryderman], 486

Pneumoconiosis

- of cement workers [abst.], 318
- in lignite mines [abst.], 317
- in British mines and quarries [abst.], 317
- respiratory effects in [abst.], 310

Pollution

- control of: societal aspects [Hoak], 446

Preventive medicine

- in naval aviation training [Phillips & Bair], 53

Psychiatry

- practical, in industry [Felix], 614
- techniques: practical application in industry [Collins], 620

Potassium

- and sodium alloy: experimental study of its hazards [Finkel & Lyons], 624

Public health

- and occupational medicine: mutual goals [Burney], 571

Q

Quartz powder

- action on serum proteins [abst.], 323

R

Radiation

- maximum permissible exposures to man [abst.], 335
- microwave: biological effects on Air Force personnel [Knauf], 48
- preventing injury from [abst.], 336

Radioactivity

- measurement in body [abst.], 335
- neutron activation: ultrasensitive analytical tool [Cember], 527
- New York state experience in administering code for protection [Kleinfeld], 87
- protection program: factors to be considered in [Speicher], 546

Raynaud's phenomenon

- absence in warm climates [abst.], 308

Resins

- epoxy: toxicology of [Hine et al.], 129

S

SUBJECT INDEX TO VOLUME 18

The following Index contains an alphabetical list of all significant subjects presented in the volume. Abstracts are indicated by [abst.], Books reviewed are listed alphabetically by author and by title under the heading "Books."

A

Absence, industrial
physical conditions of work and [abst.], 68
relation to wage level and family responsibility [abst.], 324

Aerosols

deposition in human subjects: experimental study [Morrow et al.], 292

Aerosols

nasal sampling in experimental animals [Asset], 460
sampling devices: collection efficiencies [abst.], 79
syringe device for studies on [Brown & Griffith], 415

Air filters

fibrous: high temperature gas and aerosol removal with [abst.], 354

Air pollution

automobile exhaust and smog formation [abst.], 77
control: studies by Southern California Edison Company [abst.], 348
effect of possible smog irritants in human subjects [abst.], 338
determination of parathion vapor and dust in atmosphere [abst.], 80
evaluation of problem from discharge of radioactive effluent [abst.], 358
fluorine: lined filter paper technique [abst.], 350
Foundation: Report 22 [abst.], 347
London fog: further observations on [abst.], 349
methods of combating in ferrous and nonferrous foundries [abst.], 352
national problem [abst.], 78
penetration of irregularly shaped particles through air-borne dust elutriator [abst.], 354
from power stations and chemical factories: effect on health [abst.], 76
and public health [abst.], 349
from road transport: operator's viewpoint [abst.], 79
stack gas emissions: method of tracing ground level distribution [abst.], 347
sulfides: ultramicrodetermination [abst.], 79
survey [abst.], 77
threshold and toxic limits of some amino and nitro compounds [Pacseri et al.], 1
toxic effects of mixtures of sulfur dioxide and smoke with air [abst.], 63
water-soluble chlorides, sulfates, and nitrates in suspended dusts [abst.], 350
weather modification and smog [abst.], 78

Air pressure

high: safety [abst.], 356
high: safety in small-scale experiments [abst.], 357

Air sampling

automatic programming filter sampler [abst.], 350
large-volume electrostatic air sampler [Stern et al.], 30
particle-sizing method for aerosols and fine powders [Dimmick et al.], 23
use of membrane filters [abst.], 350
vane-type collectors: critical design factors [abst.], 354

Alcohol

allyl: acute and chronic toxicity [Dunlap et al.], 303

Aluminum

oxide, calcified: effect of use in china biscuit placing on health of worker [abst.], 328

Amino compounds

cystoscopy in medical supervision of workers in [abst.], 346
industrial, used in Hungary: toxicological investigations [abst.], 61

Amino compounds

threshold and toxic limits [Pacseri et al.], 1

p-Aminobiphenyl

carcinogenic activity in dog [abst.], 333

Ammunitions manufacture

dermatitis in ammunition plant [Knight], 155

Apparatus

large-volume electrostatic air sampler [Stern et al.], 30
syringe device for studies on bacterial and other aerosols [Brown & Griffith], 415

Asbestosis

severe, with alveocapillary block syndrome [abst.], 71

Asthma

bakers' and millers', so-called [abst.], 59
occupational [abst.], 330

Atherosclerosis

current trends in research [Bragdon], 222

Atmosphere

chemistry and physics of [abst.], 79

Atomic energy

impact on military medicine [McIntire], 185
Knolls laboratory: radioactive waste handling at [abst.], 81

Aviation medicine

newer concepts [Snowden], 190

B

Benzene

damage to blood-forming system [abst.], 60
poisoning [abst.], 337, 338

Benzidine

biotransformation in dog [Sciurini & Meigs], 521

Beryllium

hazard: detection with radioactive polonium [abst.], 351
poisoning, chronic, treated with corticotropin [abst.], 70

Books

American Industrial Hygiene Association: Industrial Noise Control, 449
Biological Effects of Whole-Body Gamma Radiation on Human Beings [Davidson], 449
Bulletin of Atomic Scientists, Vol. 14, No. 1, Jan., 1958

SUBJECT INDEX TO VOLUME 18

Books—continued

- Effects of Atmospheric Pollution on Health of Man: Annotated Bibliography [Dep't of Preventive Med. and Indust. Health, Kettering Lab., Univ. of Cincinnati], 274
- Handbook of Noise Control [Harris, ed.], 86
- Harris, C. M., editor: Handbook of Noise Control, 86
- Healing of Wounds [Williamson], 184
- Holt, P. F.: Pneumoconiosis, 532
- Hyman, A. S.: Practical Cardiology, 450
- Industrial Council for Tropical Health: Industry and Tropical Health: III. Proceedings of Third Council, 274
- Industrial Noise Control [Am. Indust. Hyg. Ass'n.], 498
- Industry and Tropical Health: III. Proceedings of Third Conference, Industrial Council for Tropical Health, April 16-18, 1957, in Boston, 274
- Leavell, H. R., and Clark, E. G.: Preventive Medicine for Doctor and His Community. Ed. 2, 184
- Ministry of Labour and Employment, Government of India: Thermal Stress in Textile Industry, No. 17, 86
- Nature of Radioactive Fallout and Its Effects on Man, 87
- Pneumoconiosis [Holt], 532
- Practical Cardiology [Hyman], 450
- Preventive Medicine for Doctor in His Community. Ed. 2 [Leavell & Clark], 184
- Signs, Symptoms and Treatment of Certain Acute Intoxications [Deichmann & Gerarde], 450
- Thermal Stress in Textile Industry, No. 17 [Ministry of Labour and Employment, Government of India], 86
- University of Cincinnati, Department of Preventive Medicine and Industrial Health Kettering Laboratory: Effects of Atmospheric Pollution on Health of Man: Annotated Bibliography, 274
- Williamson, M. B.: Healing of Wounds, 184
- World Health Organization: Effect of Radiation on Human Heredity, 88

Bronchitis

- chronic: disability and mortality from, in relation to dust exposure [Fletcher], 368

Bysinosis

- contribution to study [abst.], 331

C

Cadmium

- chronic toxicity of, administered in drinking water to rats [Decker et al.], 228
- data for determination of maximum allowable concentration in air of industrial premises [abst.], 62
- oxide: functional state of nervous system of workers subjected to effect of [abst.], 66
- oxide: occupational lung diseases resulting from continuous exposure to aerosol [abst.], 330
- poisoning [abst.], 62
- poisoning: fatal case [abst.], 59
- poisoning: treatment with edathamil calcium disodium [abst.], 339

Cancer

- extent of illness in United States [abst.], 338
- periodic examinations for early diagnosis [Day], 273
- uterine: detection in industry [McLean et al.], 261
- yield in relation to screening procedures [Venet & Hoyt], 281

Carcinogenesis

- metal: experimental studies [Hueper], 284

Carbon

- disulfide: effect on proteolytic enzymes [abst.], 68

Carbon—continued

- disulfide and tetrachloride: potential health hazards in fumigation of shelled corn with mixture of [abst.], 328
- disulfide poisoning and newly described form of chronic poisoning [abst.], 61

Carbon black

- skin contact: physiological effects [Nau et al.], 511

Cataracts

- and ultra-high-frequency radiation [Cogan et al.], 299

Cholinesterase

- anticholinesterase activity [Golz], 138

Chromium

- chromite ore roast: cancerogenic effects of, deposited in muscle tissue and pleural cavity of rats [Hueper], 284
- hexavalent and total [abst.], 60
- hexavalent and trivalent: chronic toxicity of, administered in drinking water to rats [MacKenzie et al.], 232
- and nickel: effect of salts of, on skin [Samitz & Pomerantz], 473

CORRESPONDENCE

- new method of treating soft tissue injuries without laceration [Burdette], 446

Cyanosis

- chemical: evaluation through improved techniques of hemoglobin analysis [Evans et al.], 422

D

DDT

- and DDE: storage in persons with different degrees of exposure to DDT [Hayes et al.], 398
- prolonged intensive occupational exposure to [Ortelee], 433

Decompression sickness

- acute: report of 44 cases [abst.], 69

Dermatitis

- industrial: failure of worker's skin to clear [Morris], 431
- poison ivy: oral antigen preparation in prevention [abst.], 340

Dermatoses

- in manufacture of glass fiber [abst.], 329
- why worker's skin does not clear [Morris], 431

Diarrhea

- in travelers returning to United States from Mexico [Kean & Waters], 148

Diatomite

- hygienic conditions of work in [abst.], 73

Dieldrin

- poisoning in man [abst.], 328
- poisoning, occupational, chronic: new cases [abst.], 337

Diesel engines

- air pollution in Diesel bus garages [abst.], 75

Dimethylhydrazine

- unsymmetrical: health hazards [abst.], 62

Dimethylsulfate

- poisoning [abst.], 64

Diving

- recent trends: medical aspects [Duffner], 208

Dust

- air-borne: ASHAE survey [abst.], 347
- air-borne: size distribution in mines [abst.], 351
- coal and hematite dusts inhaled successively: disposal [abst.], 324

Dust—continued

- control: use of lignin sulfonate on haulage roads in arid regions [abst.], 352
- control in wet drilling [abst.], 356
- cyclones, dust-collecting: measurement of average degree of precipitation [abst.], 356
- deposition [abst.], 349
- explosions: venting [abst.], 81
- exposure: disability and mortality from chronic bronchitis in relation to [Fletcher], 368
- Fiberglas plastic: biological action [Schepers et al.], 34
- of fibrous materials: fire hazard [abst.], 83
- filtration, high-efficiency, at high temperature [abst.], 80
- hygiene: conference of committees of Confederation of German engineers [abst.], 354
- inhalation: relative importance of concentration and duration of exposure [abst.], 68
- separators, mechanical: influence of boundary layer processes on separating power [abst.], 356
- standard dust cloud for testing purposes [abst.], 78

E

- Edathamil
 - calcium-disodium: ineffectiveness in nickel poisoning [West & Sunderman], 480
- Endrin
 - acute and chronic exposure of rats to [Speck & Maaske], 268
- Ethylene oxide
 - toxicity [abst.], 66

F

- Fiberglas-plastic
 - dust: biologic action [Schepers et al.], 34
- Fire extinguishers
 - small: methods of testing [abst.], 83
- Fluoride
 - control at Geneva (Provo, Utah) works [abst.], 352
- Fuels
 - high-energy: toxicity [abst.], 334
- Fulham-Simon-Carves process
 - for recovery of sulfur from flue gases [abst.], 348

G

- Gas, waste
 - rise of hot plume [abst.], 77
- Glass
 - radiographic characteristics [Roberts], 470

- Government
 - medical relations with unions, management, and [Holzhog], 142; [McCahan], 145

H

- Health plans
 - cooperative prepaid, in industry [Honan], 151
- Hearing
 - loss in relation to industrial noise exposure [abst.], 59
- Heart disease
 - cardiac employee: effective return to work [Thorpe & Weaver], 168
 - cardiac patient in New York City transit system [abst.], 69
- Heat
 - man and his thermal environment [abst.], 325
 - thermal environment in nonferrous foundries [abst.], 80

Hemoglobin

- analysis: evaluation of chemical cyanosis through improved techniques [Evans et al.], 422

Hydrocarbons

- neurotoxicity [Furnas & Hine], 9

Hydrofluoric acid

- and red fuming nitric acid vapor mixture: acute toxicity [Pfitzer et al.], 218

I

- Industrial employees
 - senior: cancer-detection program for [O'Donnell], 278
- Industrial hygiene
 - trouble-shooting survey [Kleinfeld et al.], 120
- Industry
 - medical relations with management, unions, and government [Holzhog], 142; [McCahan], 145
- Insecticides
 - organic phosphate: potentiation of toxicity [Dubois], 488

Iron

- siderosis [abst.], 74

L

- Labor Unions
 - medical relationship with management, government, and [Holzhog], 142; [McCahan], 145
- Lanthanum
 - yttrium and: toxic effects [Hartwig et al.], 505
- Lead
 - poisoning: absorption of oral edathamil calcium-disodium [abst.], 343
 - poisoning, chronic: incidence in accumulator and lead paint factories [abst.], 332
 - poisoning in 9 members of a family [abst.], 341
 - poisoning: reexamination of plumbism [abst.], 62
 - poisoning: treatment [abst.], 70
- Lindane
 - determination of trace amounts by infrared spectrophotometry [abst.], 79
- Los Angeles County
 - emissions from organic solvents [abst.], 347
 - products emitting organic vapors [abst.], 76
- Lungs
 - emphysema in dust diseases of [abst.], 74
 - disease among sisal workers [abst.], 329
 - emphysema: evaluation of dyspnea [abst.], 340
 - emphysema in glass-blowers and musicians [abst.], 333
 - manifestations in gold miners on Witwatersrand [abst.], 329
 - penetration and transfer of dust in interstitial tissue [abst.], 327
 - residual air: simple helium closed circuit vs. oxygen circuit method for measuring [abst.], 324
 - respiration and bronchi in agricultural population [abst.], 341
 - self-cleaning power [abst.], 326

M

Magnesium

- oxide: electron microscopy of particles collected on membrane filters [abst.], 80

Malathion

- intoxication [abst.], 64

Mercury

- atmospheric, trapped in permanganate solutions: determination [abst.], 350
- hazards and handling [abst.], 62

SUBJECT INDEX TO VOLUME 18

Mercury—continued

- organic: environmental exposure, excretion, and prevention of intoxication in its manufacture [Dinman et al.], 248
- organic compounds: health hazards in treatment of seed grain with [abst.], 328
- toxicity: bibliography [abst.], 61
- tremor, mercurial [abst.], 336
- tremor, mercurial: treatment with EDTA and BAL [abst.], 336

Metals

- experimental studies in cancerigenesis [Hueper], 284
- powder: health and safety in handling [abst.], 82

Mexico

- diarrhea in travelers returning to United States from [Waters & Kean], 148

N

Naval medicine

- sources of ionizing radiation hazards [Brimson], 186

Nerves

- neurotoxicity of selected hydrocarbons [Furnas & Hine], 9

NEWS AND COMMENT, 88, 183, 273, 448, 531

Nickel

- and chromium: effects of salts of, on skin [Samitz & Pomerantz], 473
- and chromium salts: effects on skin [abst.], 473
- poisoning: ineffectiveness of edathamil calcium-disodium in [West & Sunderman], 480

Nitric acid

- red fuming, and hydrofluoric acid vapor mixture: acute toxicity [Pfitzer et al.], 218

Nitro compounds

- threshold and toxic limits [Pacseri et al.], 1

Nitroglycerine

- and ethylene glycol dinitrate: medical examination of workers [abst.], 72

Nitro-olefins

- acute effects on experimental animals [Deichmann et al.], 312

Noise

- jet noise at airport [abst.], 353
- in mines [abst.], 353
- reduction in machinery [abst.], 353

Nuclear energy

- administrative problems [Shipman], 106
- diffusion and deposition in relation to reactor safety problems [abst.], 359
- reactor: preoperational environmental survey [abst.], 358
- safety considerations in processing plant design [abst.], 360

O

Occupational Health

- clinical and administrative aspects [abst.], 340

Occupational medicine

- education for practice of [Lippard], 89
- place in teaching hospital [abst.], 74
- residencies in, 320

Octadecylamine

- toxicity, chronic [Deichmann et al.], 483

Odors

- control: latest methods [abst.], 75
- control: summary of conference on [abst.], 77
- control: use of chemicals [abst.], 348
- environmental: evaluation [abst.], 348

Ozone

- poisoning: silicone aerosols and alcohol vapor therapy [abst.], 333
- toxicity for young chicks [Quilligan et al.], 16

P

Paints

- safe design and use of spray booth with paint filters [abst.], 80
- flammable: standard on spray finishing [abst.], 83

Parathion

- effect on red blood cell and plasma cholinesterase [Williams et al.], 441
- exposure in greenhouse [Culver et al.], 235
- gauze strips impregnated with: risks in use in fly control [abst.], 329

Particulate matter

- inhaled: glass microspheres as tracers [Gordieff], 389
- particle-sizing method for aerosols and fine powders [Dimmick et al.], 23

Pentaborane

- vapor: chronic toxicity [abst.], 333

Pesticides

- changing patterns in [Ward], 134

Phosphates

- organic insecticides: potentiation of toxicity [Dubois], 488

Phosphine

- toxicity [Harger & Spolyar], 497

Phosphites, alkyl

- bis(2-ethylhexyl) hydrogen phosphite: acute and subacute toxicity [Joffe et al.], 464

Phosphorus

- organic compounds: clinical picture of poisoning [abst.], 335
- organic sprays: exposure to, and occurrence of symptoms [abst.], 72

Plastics

- eczema caused by [abst.], 71

Plating and allied industries

- fume exhaustion in [abst.], 352

Pneumoconiosis

- cork-dust: experimental suberosis [abst.], 67
- hematite, in Cumberland miners [abst.], 63
- risk in manufacture of silica gel [abst.], 331
- status: introduction [Princi], 361
- status: environmental factors [Schrenk], 365
- talc, and talc skin granuloma [abst.], 87

Poisons

- economic: morbidity and mortality from, in United States [Conley], 126

Psychology

- psychologist in industry [Robertson], 110
- psychologist in industry: role as seen by psychiatrist in industry [MacIver], 118
- role in industry [Conant], 113

Pyrites roasting

- occupational gastric disease in workers [abst.], 75

Q

Quartz

- adsorption of serum protein on [abst.], 326

R

Radiation: See also Strontium, radioactive

- background exposure of general population [abst.], 358
- evaluation of risks: special problems inherent in human genetics [abst.], 85
- external sources: dosage and biological effects [Laughlin], 102
- fall-out particles: nature [abst.], 83

Radiation—continued

- fall-out, radioactive [abst.], 85
- fall-out, radioactive: determination [abst.], 85
- fall-out, radioactive: efficiency of scavenging devices in determination [abst.], 359
- fall-out, radioactive: protection afforded by buildings against gamma radiation from [abst.], 360
- hazards: chest x-ray examinations and [abst.], 342
- hazards, and what is being done about them [abst.], 359
- ionizing: sources of hazards in naval medicine [Brimson], 186
- radioactive gases: ionization chamber assay of [abst.], 85
- radioactive tracer technique for study of turbulent diffusion and maxing in coal mine ventilation [abst.], 81
- radioactivity, internal: dosage and biological effects [Stannard], 95
- sickness: use of sulfur-containing compounds in prevention [abst.], 360
- ultra-high-frequency: cataracts and [Cogan et al.], 299

Radiography

- gamma, in industry [abst.], 84
- miniature, mass: investigations in industries of Bologna [abst.], 344

Radium

- and mesothorium poisoning [abst.], 84

Rehabilitation

- or cardiac patients: survey of medical directors in industry [abst.], 69

Resins

- epoxy: chemical and dermatological aspects of their use [abst.], 338

Respiration

- respiratory response of guinea pigs to sulfuric acid mist [Amdur], 407

S

Silica

- amorphous: fibrogenic activity [abst.], 346
- crystalline: determination [abst.], 351

Silicic acid

- interaction with insulin, albumin, and nylon monolayers [abst.], 334

Silicon

- radioactive: metabolism of silica and silicates injected intravenously into animals studied by means of [abst.], 69

Silicosis

- control: research in [abst.], 71
- from crushing of limestone with flint deposits [abst.], 72
- emphysema, and chronic bronchitis: bronchial spasm and effect of aerosol inhalation [abst.], 68
- experimental: morphogenesis of silicotic nodule [Gross et al.], 374
- hemogenic tests in persons with [abst.], 344
- hyaline tissue: immunological factors in pathogenesis [abst.], 339
- lesions, experimental: electron microscope studies of myelinic bodies [abst.], 345
- in Moroccan miners [abst.], 345
- pathogenesis: influence of degree of dispersion on biological activity by intratracheal injections in rats [abst.], 60
- in pottery and ceramics industry [abst.], 581
- silicoidosis, in steel foundry [abst.], 343
- Silicosis Medical Bureau of Northern Rhodesia and Silicosis Compensation Board [abst.], 342
- treatment with compound 48/80 [abst.], 339
- and tuberculosis: incidence in dusty industries of Venetia [abst.], 73

Strontium

- radioactive: carcinogenic effects of beads implanted in lungs of rats [abst.], 358

Submarine medicine

- changing pattern [Alvis], 195
- on Nautilus and Seawolf [Ebersole], 200

Sulfur

- dioxide: flue-gas washing equipment in power stations [abst.], 81

Sulfuric acid

- mist: respiratory response of guinea pigs to [Amdur], 407

Sulfur dioxide

- removal from flue gases [abst.], 78

T

Tetrachlorethylene

- hazards [abst.], 335

Threshold limit values for 1958, 178

Tin

- bis(tri-n-butyltin) oxide: toxicological studies [Elsa & Paynter], 214
- dialkyl and trialkyl salts: toxic properties [abst.], 334

Toluene

- diisocyanate: control of exposures in polyurethane foam manufacturing [abst.], 352

Toxic substances

- labeling requirements: governmental industrial hygienists' viewpoint [Elkins], 451

Toxicity

- chronic, of octadecylamine [Deichmann et al.], 483
- chronic: studies on cadmium administered in drinking water to rats [Decker et al.], 228
- chronic: studies of hexavalent and trivalent chromium administered in drinking water to rats [MacKenzie et al.], 232
- method for reporting toxicological information [Lewis], 457

1,1,1-Trichloroethane

- methyl chloroform [abst.], 65

Trichlorethylene

- industrial exposure: health dangers [abst.], 335

U

Urine

- cells: routine method for preparation [abst.], 58

V

Vanadium

- data for determination of maximum allowable concentration in air of industrial premises [abst.], 62

Vision

- range permitted by protective goggles [abst.], 83

W

Weedex (4-chlor-2-methylphenoxyacetic acid)

- action on carbohydrate mechanism in rabbits [abst.], 65

Welding

- arc welder's lung [abst.], 59

Wood

- laminated: hygienic conditions in factory producing [abst.], 332

Workmen's compensation

- legislation and claims: effect of research on [abst.], 83

Workmen's compensation laws

- New York State: costs, operations, and procedures [abst.], 357

Y

Yttrium

- and lanthanum: toxic effects [Hartwig et al.], 505
